Southern District of New York

Re: United States v. Roger Thomas Clark  
15-cr-866 (WHP)

Dear Judge Pauley:

I write to update the Court on the status of Roger Clark's health. I spoke with Mr. Clark on the telephone today. He advises me that while his physical health has improved, although he still remains fatigued and still is sleeping far more than he did before he was ill, his mental acuity remains impaired. Specifically, he reports experiencing "brain fog." He has difficulty concentrating. He is having issues with his short-term memory. He stated as an example that he has begun trying to read again to improve his focus. Prior to his diagnosis, he could read rapidly and had good recall of what he read. When he attempts to do even pleasure reading now, he has to read and reread a passage to retain the information. I have advised Mr. Clark to make the MDC Health Services aware of his cognitive issues to see if there is any treatment they could prescribe.

I ask that the Court permit me to submit another status letter in two weeks, on June 25, 2021. In the interim I will again confer with Mr. Clark to discuss his status.

I have conferred with the government, and the government has no objection to this request.

Respectfully submitted,
